

The Chiller GF

A Fresh Approach and New Look

Water Techniques CrystalCool with UV brings a unique, fresh approach, and a new look, to point-of-use systems in the marketplace. Unlike a bottled water cooler, incoming tap water is treated as it's needed, so the water is always fresh tasting. The CrystalCool with UV has a cooling capacity that surpasses that of the ordinary bottled water cooler, so you are sure to get a cold, refreshing serving of drinking water every time.
